

2-Step Verification phone number การยืนยันตัวตนด้วยเบอร์โทรศัพท์มือถือ

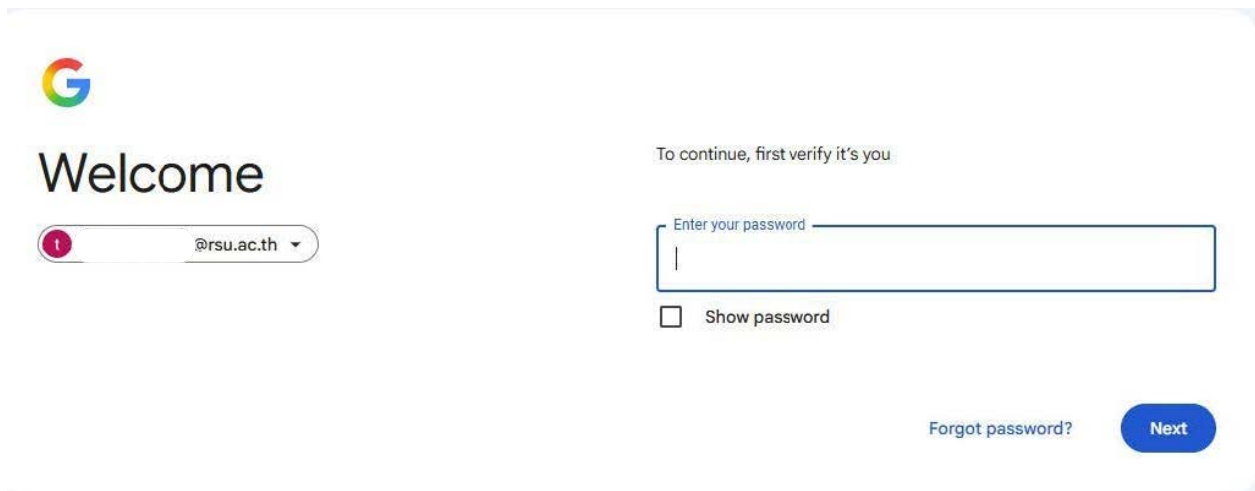

1. ไปที่ myaccount.google.com หรือไปที่หน้าจัดการบัญชีของผู้ใช้งาน

2. เลือกเมนู Security & sign in แล้วเลือก 2-Step Verification หากยังไม่ได้เปิด 2-Step Verification ไว้ จะแสดงข้อความว่า 2-Step Verification is off

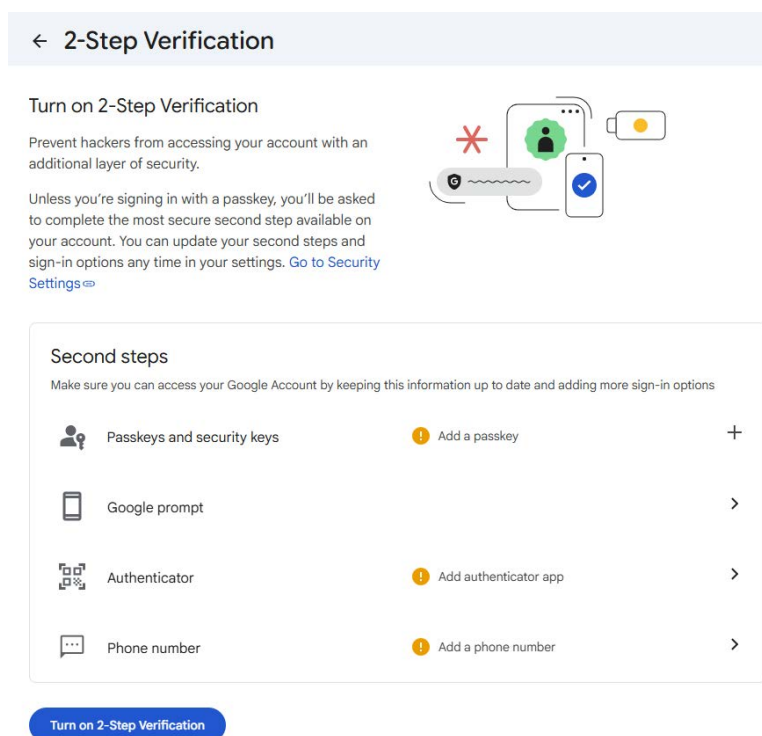

3.กรอกรหัสผ่านอีเมลอีกครั้ง

The image shows a Google account welcome screen. On the left, there is a Google logo and the word "Welcome". Below it is a profile icon and the email address "@rsu.ac.th". On the right, there is a text prompt "To continue, first verify it's you". Below this is a password input field with the placeholder text "Enter your password". There is a checkbox labeled "Show password" below the input field. At the bottom right, there is a link "Forgot password?" and a blue button labeled "Next".

4.หน้า 2-Step Verification เลือก Add a phone number

The image shows the "2-Step Verification" setup screen. At the top, there is a back arrow and the text "2-Step Verification". Below this is a section titled "Turn on 2-Step Verification" with a description: "Prevent hackers from accessing your account with an additional layer of security." It also mentions that unless signing in with a passkey, the user will be asked to complete the most secure second step. To the right of the text is an illustration showing a smartphone with a red 'X' over it, a green checkmark over it, and a blue checkmark over it. Below the text is a section titled "Second steps" with the instruction "Make sure you can access your Google Account by keeping this information up to date and adding more sign-in options". This section contains four items: "Passkeys and security keys" with an "Add a passkey" button and a plus sign; "Google prompt" with a right arrow; "Authenticator" with an "Add authenticator app" button and a right arrow; and "Phone number" with an "Add a phone number" button and a right arrow. At the bottom left, there is a blue button labeled "Turn on 2-Step Verification".

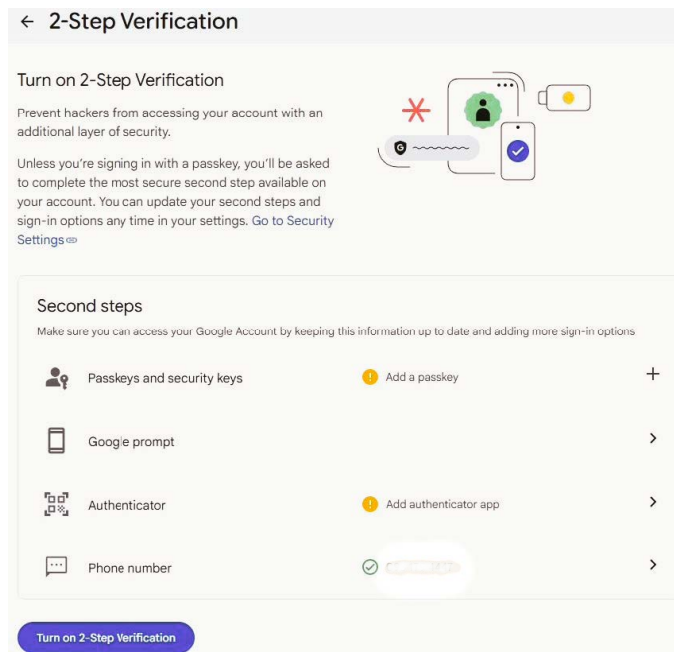

5. เลือก + Add phone number แล้วกรอกเบอร์โทรศัพท์มือถือของผู้ใช้งาน แล้วกด Next

The screenshot shows the '2-Step Verification phones' setup screen. A modal dialog titled 'Add a phone number' is open. The dialog explains that a phone number can be used for verification and security alerts. It features a country code dropdown menu showing '+66' and a text input field. Below the input field, there are two radio button options: 'Receive codes by text message' (which is selected) and 'Receive codes by voice message'. At the bottom of the dialog are 'Cancel' and 'Next' buttons. The background screen shows a warning about adding more sign-in options and a '+ Add phone number' button.

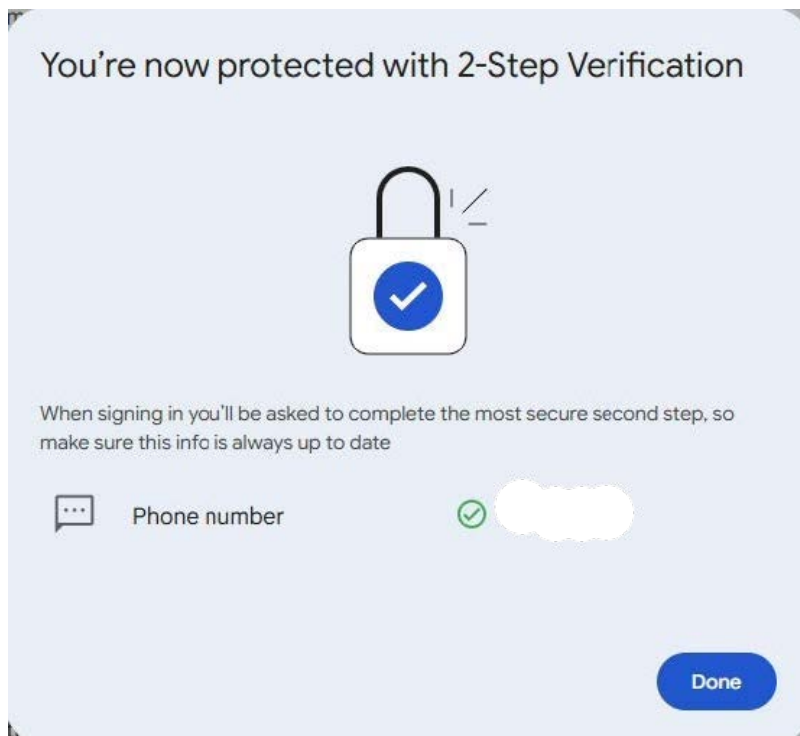

6. ตรวจสอบเบอร์โทรศัพท์มือถือ หากถูกต้องแล้วกด Save

The screenshot shows the '2-Step Verification phones' setup screen. A modal dialog titled 'Confirm your phone number' is open. The dialog asks the user to confirm the phone number '+66' followed by a masked number. It states that codes will be sent to this number by text message. At the bottom of the dialog are 'Back' and 'Save' buttons. The background screen shows the same warning about adding more sign-in options and the '+ Add phone number' button.

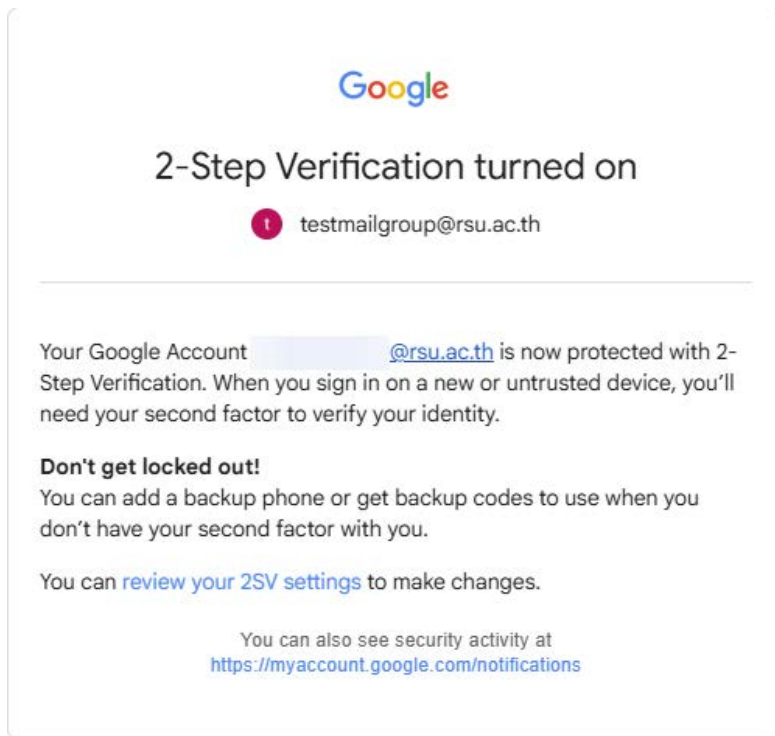

7. หน้าต่าง 2-Step verification กดเลือก Turn on 2 step verification

8. กด Done เพื่อเสร็จสิ้นการเปิด 2-Step Verification
